

Applied Design

Sketch Assignment #2

Front Doors

Create **8** front doors for your sketchbook this week. Add color using the any medium you prefer. Design your doors to tell a story. Your sketches should include a few words to go with each image that tell the type of people you would find in this space, what is their style, what types of things you might find in their house based on the design of the front door. Get creative, the doors do not have to be traditional, they can be custom made.
