

## History of Chairs Project

*Goal-To examine and explore significant chair design from a variety of materials, time periods and designers.*

Each student will randomly select a chair and research its history.

For this project you will present a LARGE sketch of your selected chair along with visually interesting written information (it will be included on the paper with the sketch-not a separate report. The written material you include on the paper should entice people passing by to stop and want to know more. The chair itself should be at least 36"

### **The project should include:**

Large drawing of the chair (can be sketchy or finished using any materials or color scheme-consider the nature of your chair and select materials that connect to the design)

Title of the overall piece or name of the chair

Name of the designer if it is credited to one person

Date or time period in which it was designed

Materials

How it is used

Value

Fun facts that you think are interesting

### **It will be graded on:**

- Craftsmanship
- Information conveyed
- Effectiveness of visual written information
- Completed on time and overall effort
