

Sketchbook Assignment #3

Series of related objects

Select a series of related objects

(things in your junk drawer, items on your bathroom counter, things in your kitchen drawer, items in your car console, things in your wallet, toys in a series, etc.)

Once you have selected your items study and really look at the details of each object as you draw. Include as many details as possible. Add visual interest with shading, consider using pen to complete the work.

Your work will be graded based on:

- Is the page filled?
- Are the objects detailed and is it obvious you were looking at the actual object as you drew?
- Is it visually interesting?
- Is it complete and on time?
